

ABOUT FRIDO

We started with wheelchairs. We make comfort for everyone now.

Frido began as a pioneer in wheelchairs. Today we make ergonomic products backed by science and thoughtful design: pillows, cushions, shoes, ergo furniture, orthotics, mobility, and a rapidly growing portfolio.

Every one of them is designed to give people the freedom to do more in life.

40 lakh+

customers across India use and trust Frido's comfort and orthopaedic products

WHAT'S NEXT

The Frido Care App is our next initiative: for people recovering from pain and discomfort, and for the professionals who help them. In time, it will also help patients find and book Frido's partner physiotherapists.

CARE

FOR PHYSIOTHERAPISTS

One app for your practice & patients.

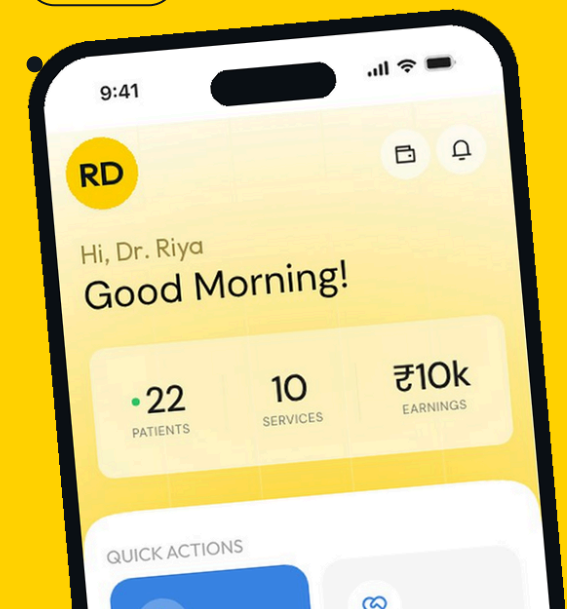

Run structured assessments, write the plan, share the prescription on WhatsApp and follow up with every patient, from one app.

Follow up

HOW IT WORKS

Five steps, one app, every patient.

- 01 Onboard**
Join Frido Care and get your personal partner code.
- 02 Consult**
See patients from Frido's customer base, or bring your own existing patients onto the app.
- 03 Assess**
Run a free ergonomic assessment to understand how your patient sits, works and rests.
- 04 Recommend**
Based on the assessment, recommend the right Frido services and products for your patient's needs.
- 05 Track**
Keep the care journey going beyond the session, with the patient's plan available to follow at home.

Every finding becomes a written plan: corrections, exercises, products and the follow-up date, on the patient's record.

FROM RECOMMENDATION TO REWARD

Pick. Send. Earn.

Pick

Choose the Frido products or services you want to recommend.

Send

Share the prescription directly with your patient on WhatsApp.

Earn

Your recommendation is tracked and you earn on every order and consultation.

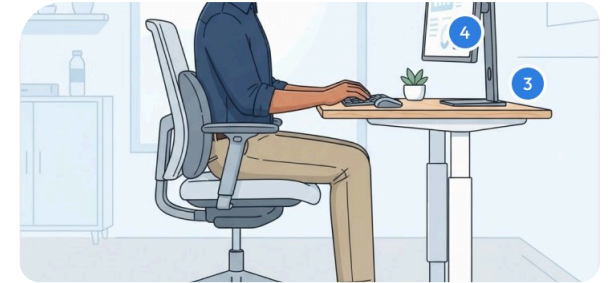

PARTNER CODE

Your patients get a discount when they order with your partner code. You earn on every order, with rewards paid monthly into your wallet in the app.

GROW YOUR PRACTICE

Care that continues after the visit.

- ✓ Stay connected with patients between visits and help them follow their plan at home.
- ✓ Give your patients a tool to track their own recovery and progress.
- ✓ Earn extra rewards when your product recommendations convert through your partner code.
- ✓ Support continuity of care between visits.

Join the Frido Care programme for free and see what it can do for your practice.
